

ADMIN VIEW:

A screenshot of a 'Sign In' window. The window has a title bar with a 'Sign In' icon and standard window controls. The main content area has a dark background. At the top, it says 'Enter your data' in large white text. Below this, there are two input fields: 'Email address' with the value 'mat.jankowski99@gmail.com' and 'Password' with masked characters '.....'. At the bottom, there is a large button with a right-pointing arrow and the text 'Log in'.

mat.jankowski99@gmail.com has type A in DataBase and it means Mateusz is a Administrator.

Admin form:

A screenshot of the 'Admin' interface. The window title is 'Admin'. The main content area is divided into several sections. At the top right, there is a button 'Manage your team'. Below this, there is a 'Project editor' section with a table showing project details. The table has columns: ProjectOwner, ProjectName, ProjectDescription, StartDate, EndDate, and Status. Below the table, there is a section 'Add new project' with fields for Project leader, Project name, Description, Start Date, and End Date. The Start Date and End Date are set to 06/09/2023. Below this, there is a 'Task editor' section with a table showing task details. The table has columns: ProjectName, TaskHolder, TaskDescription, StartDate, EndDate, and Status. Below the table, there is a section 'Add new task' with fields for Project, Holder, Description, Start Date, and End Date. The Start Date and End Date are set to 06/09/2023. At the bottom, there is a section 'Delete completed projects and tasks' with fields for Project and Task, and buttons 'Delete project' and 'Delete task'.

USER VIEW:

A window titled "Sign In" with a dark background. It contains the text "Enter your data" in large white font. Below it are two input fields: "Email address" with the value "jan.kowalski@gmail.com" and "Password" with masked characters "•••••". A "Log in" button with a right arrow icon is at the bottom.

[Jan.kowalski@gmail.com](mailto:jan.kowalski@gmail.com) has type U in Database and it means that Jan is User.

A window titled "User" with a dark background. It displays a greeting "Hello! jan.kowalski@gmail.com". Below the greeting are two sections: "Your actual projects" and "Your actual tasks". Each section contains a table with columns: ProjectName, Description, Deadline. The "Your actual projects" table has one row: Proj1, ProjectDesc, 2023-06-09. The "Your actual tasks" table has one row: Proj1, TaskDesc, 2023-06-09. Below the "Your actual projects" section is a "Change task status" section with a dropdown menu and a "Complete task" button. A modal dialog titled "Jirry" is open, showing the text "Projects that end today and earlier: TaskDesc" and an "OK" button.

Now the user can finish the task. If all tasks in the project are completed then the project will get the status 'completed'. From this point on, the administrator will be able to delete completed shuffles and projects. However, information about them is not lost thanks to a trigger-based archive table in the database.
